Fraternity leadership — a design for the future

Maddox joins White at headquarters

Sigma Phi Epsilon Fraternity, with its current representation at 255 campuses across the nation and an undergraduate membership of more than 14,000 (the largest of any snip or more than 14,000 (the largest of any fraternity), along with its related opera-tions—the National Housing Corporation, the Sigma Phi Epsilon Educational Founda-tion, and S.P.E. Management Corporation has developed into a dynamic, challenging organization. It is an organization which re-quires the finest leadership and carefully structured management.

That growth and strength has been a-cheved mainly through the skillful guidance of the Fraternity's Executive Director, Charles N. White Jr., Western Michigan

now reached a point in its growth and development which requires a strengthened management structure of Directors conducted an extensive search for an alumnus with unique talents to pro-

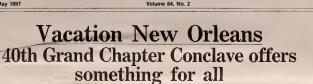

It is my pleasure to amounce that Kenneth S. Maddox, a 1975 graduate of Oregon State University, where he was a member of the longtime number one ranked fraternity on that campus, has rejoined the Head-quarters staff on May 1, 1987, in the position of executive director of Sigma Phi Epsilon

At the same time, Chuck White was elevated to the new position of managing director of Sigma Phi Epsilon, with overall (Continued on page 3)

NEW ORLEANS-Plan your family's variation around Sigma Phi Epsilon's 40th Grand Chapter Conclave The biggest Sig Ep-gathering in history will convene in Grain Chapter Conclave the oligiest Sig Ep gathering in history will convene in America's most fascinating city—New Or-leans, Louisiana. From the French Quarter to the thriving seaport. New Orleans offers you fun, music, excitement, delicious food and history. All the ingredients for a once-in-a-lifetime vacation are in this good-time town on the river.

Kick up a Charleston to a plunkety-plunk-in' banjo on a Mississippi river boat. Brogge down Bourbon Street from dusk 'til dawn. or dawn 'til dusk.. or both Take the kids for streetcar or take your wife on a romantic horse-drawn carriage ride through the streets of the French Quarter-just like Old Europe Dine in the sedate splendor of a famed French restaurant or the rowdiness

Slide into the city for some hot jazz or relax in the luxury and splendor of New Orleans' finest hotel—the Sig Ep host hoty that only the Fairmont can prove

Never again will you be able to live in style at one of America's finest hotels for onsays at one or america's finest hotels for on-ly \$64 per night (double occupancy—the gen-eral public pays \$160). Special sinte rates are available for alumni reumons. An award-winning hotel for a first-class affair!

Your brothers will be there. Your friends will be there. Make plans now for you to be in that Sig Ep number in 1987.

Across the states...Sig Ep in the news

Live, from Albuquerque, it's...
ALBUQUERQUE, N.M.—"MTV's Spring ALBI QUERQUE, N.M.—"MITY S.Spring Break," telecast from Daytona Beach, Fla., featured Kevin Cummings, New Mexico '87, and Jeff Bacca, New Mexico '87, win ners of the MTX Hock Alke (tip sync) con-test to benefit Students Against Multiple Sclerosis (SAMS), The two Sig Eps imper-sonated Jake and Elwood Blues, the Blues Sonated Jake and Edwood Budes, the Budes Bruthers, to win regional competition and proceed to the national finals in Daytona Beach During the broadeast, MTV displayed telephone numbers for viewers to call in votes for their favorite act. After 28,060 phone calls, the "Blues Bruthers" were an-

Florida spring break scene-"We were signriorna spring areak scene— we were sign-ing autographs and taking pictures with peo-ple, all we did was go on national television and dance like idiots," said Racca, a.k.a. Jake Blues. The two will spend the summer in New York with MTV and will be the official spokesmen for SAMS for the coming year, say SAMS officials in New York. (MTV is a music video cable television network a music video cable television network popular on college campuses. SAMS is a network of 250 campuses where fraterities and other groups raise money to fight the disease, which often strikes college-age men

S.W.A.T. team dampens party MONTHOMERY, Ala.—Twenty polici umts, a S.W.A.T. team and supers success fully overpowered a chartered city bus car rying Huntingdon College Sig Eps and their dates to a theme party. In developing the theme for the party, four brothers, dressed theme for the party, four products, dressed in army fatigues and wielding toy squrt guns, "hijacked" the hus after party goers had boarded. The driver, who was in on the had baarded. The driver, who was in on the act, was "ordered" to take the passengers to the location of the party—which was actually the drivers' plan iil along. (The location of the party, the National Guard Armory, had been a carefully guarded secret, forcing all to ride the buses rather than risk parties opting to drive their own ears when they might be drinking.) A bystander saw

they night be drinking.) A bystander saw the hus traveling down the street with the driver at guippoint and called police. The police took no chances when they stopped the hus within a block of its destination. The the his within a nock of its destination. The "terrorists" were disarmed, searched and ar-rested by officers holding them at gunpoint with the real thing—loaded and deadly. The driver and "terrorists" were arrested on disorderly conduct charges. The charges were later dropped. There were no injuries, only very frightened party guests.

An instant \$68,000

An instant \$68,000
BINGHAMTON, N.Y.—A \$68,000 jackpot
payoff in the West Virginia state lottery has
made Dilip Chandran, Binghamton '88, a
rich man He was one of six West Virginians rich man He was one of six West Vurginians invited to "spin the lig wheel," after his lot-tery ticket was chosen. His mother had purchased the ticket for him while shopping in his hometown of Elkins, W.V. After Uncle Sam's take of \$14,000, Chandran returned the should be seen to be supplied and the should be seen to be supplied and the seen that we had seen to be supplied and the seen that we had been seen to be supplied and the seen that we had been seen to be seen t Sam's take of \$14,000, Chandran returned to school with a cool \$54,000. He said he promptly hosted a party for ail his chapter brothers to celebrate Chandran says he plant to split the money with his 13-year-old brother to pay for their educations, and use the excess to "buy a nice stereo and travel." Where to? "Singapore and Australia, I think."

Basketballer nets Thunderbird MANHATTAN, Kan.—A shiny new \$19,000 turbo Thunderbird is sitting in the parking lot of the Sig Ep house at Kansas State University, Steve Packebush, Kansas State '81, won it shooting hoops at half time of the final home game of the Wildcats

basketball season. A local Ford dealer had test. Two tickets are drawn from a hat at every home game. The two selected contesevery nome game. The two selected contestants have 30 seconds to successfully execute a lay up, free throw, top-of-the-key shot and a half court shot—in that order. "The crowd went wild—he was the first one to ever do it," said Chapter President Doug Schiebe, Kansas State '87.

Sig Eps pitch in after Chi Omega tragedy

OXFORD, Miss.—When a University of Missassippi Chi Omega Sorority fund raiser walk-a thon for the Kidney Foundation endwalka-then for the kidney Foundation end-ed in tragedy, the Sig Eps were quick to re-spond by trying to hold the program to-gether. Mid afternoon on Thursday, March 26, a group of the sorority women were walking along the side of a Messissippi highway outside of Oxford, Details of the accident were unclear, but the escort car was hit in a three-car accident and flipped onto hat in a three-car accolent and flipped onto the walkers. Five women were killed, in cluding some of the walkers, the driver and the passengers in the car. Nine others were nighted, seven of them serboully. The new injured, seven of them serboully. The new committed and make the intended donation to the Kalney Foundation in the suportity's name. "The Chi Umagas were just stopped old and couldn't carry on with the fund old and couldn't carry on with the fund old and couldn't carry on with the fund (Sandah). Mississappi '80. Sports Fit. 1800 poins in the prayers and mourame, in the joins in the prayers and mourning in the tragic loss suffered by our Chi Omega inter-fraternal sisters. At press time, seven of the injured women remain hospitalized.

And we just needed one RICHMOND, Va-It took about 100 membership cards, parents letters, initiation forms and other various printouts to get it forms and other various printouts to get it right, but Brian A. Benda's initiation has finally been processed correctly Renda, William & Mary '90, was initiated Dec. 13, 1986, and was the first Sig Ep to have his mitiation processed on computer. His name showed up on stacks of membership cards, letters and forms while the digit crunchers etters and forms while the digit crunchers got all the glitches ironed out of the new custom designed software, but now they assure us that the rest will be smooth sail-ing. Now if only Brother Renda had a use Toward the next milestone

RICHMOND, Va.—Sigma Phi Epsilon's 159,000th member has been initiated, and the landmark 160,000th initiate should reach the landmark 160,000th initiate should reach the Headquarters on May 14 (Amazing what that new computer knows—see above.) The 156,000th initiate was Michael A. Hovis, Westminster (Pa.) '89; 157,000 was James S. Walton, Auburn (Ala.) '90; 158,000 was John A. Monahan, Ohio State '89; and 159,000 was Michael A. O'Leury, Remsselser (N.Y.) '30 who was initiated

The oldest brother

The Fraternty mourned the loss of a loyal brother December 13, 1986, when Elmore Berk, Ohio State '11, deed. Berk, just one month from his 98th burthday, was the oldest known living Sig Ep. Charles H. Achenbach, Arkansas '13, of Hendersonville, N. C., at a spry 96, is now the oldest Sig Ep we know of. Achenbach recently sent his bio form to the Headquarters to be included in the new alumni directory being printed this summer-under the occupation section, he wrote simply that "women and a touch of liquor are keeping me alive." The computer is having

to meet the educational mission of the Fraternity There is a growing need for the Foundation to provide extensive support and programming to our growing undergraduate programming to our growing unoengratuate membership in achieving their educational and career goals at the chapter level, Also, our chapters, as all fraternities, are facing important challenges in their campus interfraternity communities and in their local off campus communities. Chuck White has extensive talent and experience in these areas that can greatly benefit our chapters, as well as the Greek community.

We are most fortunate to have been able to attract Ken Maddox to the executive director's position. Ken served on the staff

director's position. Refi served on the staff in Richmond from 1975 to 1981 in a variety of positions and gained the respect of all who worked with him. Subsequently, he joined the Pacific Institute, a Seattle firm which has developed new approaches to the achieve ment of personal and corporate goals. The experience which Ken has gained in that role will be directly applicable to the programs and attitudes we are attempting to instill in our chapters and undergraduate members.
It is an indication of the strength of Sigma Phi Epsilon to have men of the caliber of Chuck White and Ken Maddox, who are will

ing to devote their careers to advancing our great Frateristy. But, they cannot do their jobs without a great deal of help. These are exciting times for Sigma Phi Epsilon, and executing times for Sigma Phi Episilon, and I encourage all of our alumni to become in-volved, to participate and enjoy the dynamic organization we all belong to, and to sense the great contribution that we are making to the development of today's college

Roy Romer, Colorado State '50

A new governor for Colorado

By Eric Shepard Colorado '87

Colorado 87
Special to the Journal
DENVER-Roy Romer, Colorado State
'50, didn't throw a hob-knobbing party to
celebrate his recent electron as Colorado's
governor, Instead, the 58-year-old Democrat
Line Rosen in bonne of his in-

governor. Instead, the Sovear-old Democrat threw a "People's Party" in honor of his in-auguration this past January. The public was invited to join Romer and his family for what the new governor hoped would be the begin ning of a long and successful reign. The event wasn't unusual for Colorado's top man, however, who over the years has

stead strives on the hardwork ethic to get I am going to be available," said Romer

'I'm going to get to know people, and listen hard to what's on their minds. That's a very high priority of mine."
This past November, Romer was elected

as Colorado's governor by defeating Repub-lican Ted Strickland in a controversial and sometimes nasty race
Romer ended up winning by over a 15 per

cent vote margin, but the race appeared close up until election day. A late ad campaign by Strickland that took jabs at his op-penent seemed to backfire and give Romer

"Roy deserves the victory," said Richard Lamm, who is Romer's predecessor. "Real-ly Roy won it, but Ted (also) lost it." Lamm, a Democrat, did not seek re-election as Col-orado's governor after holding the position

for 12 years.

With Lamm's retirement, the state Republican Party worked hard to capture the
top office, pouring more than \$250,000 into
Strickland's campaign.

But Romer, while campaigning, told Re-

publicans and independents to ignore party labels, saying the real issue was who could best lead the state to excellence.

Uses the hard work ethic to get ah

And with his vast experience in Colorado politics, most voters recognized Romer's ability to lead. Before his election as governor, Romer served as the state's treasurer for 10 years He is considered one of Colo-rado's most successful treasurers, partly rest rates of the late 1970s and early

His full name is Roy Rudolph Romer and he was born on October 31, 1928 in Garden

27 years of drinking started at rush party

served as a legal officer prosecuting other airmen in Germany for violations of the military code. When his duty was up, he proneural success, having owned and open ated the nearby Geneva Basin Ski Area for 10 years. He developed land in the state, started a flying school, and put together a chain of heavy equipment stores in three Romer served as a Colorado state renn sentative and state senator in the 1960s, ran unsuccessfully for the U.S. Senate, was appointed state agriculture commissioner : served as Gov. Lamm's chief of staff. His wife's name is Bea, and the couple have

ven children ranging from ages 15 to 33 There are five boys and two grls.

"We have always been a warm, happy family," said 27-year-old son Christopher.

"When we get together we are a very in-

While at CSU, he was a member of Sigma Phi Epsilon. After attending law school at the University of Colorado at Boulder, Romer joined the U.S. Air Force in 1952. He

But he is better known for his entre

tellectual, talkative group."

And how has he been doing as governor so far? The early grades have been positive for Romer. Even before his manufuration, the tries in an attempt to get more tourist and business dollars in Colorado. He has spent countless hours since then familiarizing an effort to lay the groundwork for his four

City, Kansas. His family moved a year later to the small eastern Colorado town of Holly

where he grew up.

Like many other rural families, the

Like many other rural tambles, the Romers struggled through the depression, and recovered to begin raising wheat, cat-te and sheep. Young Roy helped the family run grain elevators in a number of small towns. He then took his farming experience to Colorado State University in 1946, and

graduated with a degree in agriculture economics in 1950.

Problems nothing new, says reader

Recent editions of the Sig Ep Journal have contained articles on student behavior and alcohol abuse. Neither of these subjects are new to our so-nety, and for many years have been ignored. I am sure that I am not the nolly brother of Sigman Phi Epsilon who can tell this story. The names, dates, and places may be different, but the story is going to be the same. I consumed my first drink of alcohol in 1957 at a spring rush party at a Sigma Phi. Evalini chainten house at the are of 17, Not.

1997 at a spring rush party at a Sigma Phi Epsilon chapter house at the age of 17. Not only did I get drunk and pledge, but I suf-fered my first blackout in an alcoholic career which spanned the best part of the next 27 years. In fact, I did not know that I pledged until the following afternoon when I saw my unreadable signature on the pledge card. That first drink of alcohol did wonders for me—every inhibition I had disappeared when

I had been good a Christian and a good student, but that changed. When school started, I drank only on the weekends, but center in my nome town and brought my grades up enough to return to campus. I began to drink heavily again and flunked out after that semester. I changed colleges and flunked after another semester. I laid out of munked after another semester. I had out of school for a year and then returned, living in an apartment. I made grades and was in-itiated. The following year, I flunked out of school for the final time. During that year, school for the final time. During that year,
I was arrested for intoocation and urnating
on the bushes in front of the has station.
Never once, during all of that time, did
anyone say. You have a problem, "I support you
just consistered to be a "hell raiser."
After leaving school, I got married;
After leaving school, I got married;
After leaving school, I got married;
through the did to drive, but I was with another group
of people who saw driving as an important

part of their lifestyle I got promoted to Serguant within four years. As a Serguant, I was cited before a poince trial board for be-ing intoxicated off duty in a barroom brawl I got fined \$125 but was permitted to work off the fine with overtime duty. Within eight

years, I was promoted to Lieutenant. Alcohol again caused a problem, and I was cited and fined \$300 for consuming alcohol while on duty, but I retained my position as a Lieutenant. I even got that incident eradicated from my record three months later under proving

sions which permitted a reversal of trial board actions for performance of conspicuous

acts of valor.

I am retired from the job now, but I remained in the rank of Lieutenant for 12 years. Because I carried a badge, I was afyears, necause i carried a nadge, i was ar-forded a great deal of immunity. In 20 years, while off duty, I wrecked nine automobiles while drunk but was never charged. I have been stopped in numerous jurisdictions for driving while intoxicated but never charged

driving while infoxicated but never charged by my "horthers in blue". People, who thought they were helping me by ignoring my alcuholism and the behavior associated with it, were actually enabling me to continue living the alcohole life style. Things never got had enough for me to stop timings never got rait enough for me to step-drinking, someone was always there to get me out of every predicament. I got into When the enablers finally stopped enabling me, I found that I had no choice but to do something about my drinking. Until I real-ized that I had reached the bottom, I could

ized that I nito reserved the fixtom, I resulted do nothing about my problem.

A drunk doesn't have to be in the gutter to reach his personal bottom. If you really want to help someone, you must practice "tough love," "Tough love" means that you stand back and let the drunk get out of his power problements. After 277 sects, Loy the core, problements. After 277 sects, Loy the own pregraments. After 27 years, 1 got to my bottom "quick and in a hurry" when the enablers stopped enabling me Today I am a recovering alcoholism, an in-fer from the disease of alcoholism, an in-

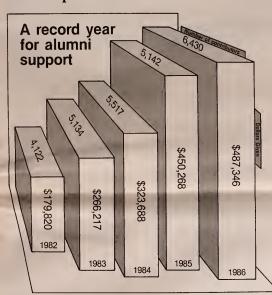

fer from the disease of alcoholism, an in-curable disease, which can only be stopped but never cared. When I picked up the tele-phone and asked for help. I found that there was a fellowship which could help me do smething about my drashing. They told me that alcohol leads to three places—all, in-stations, and death, and I have found that to be true. I found that I had not gotten me to trudke every time I drank, but that every to be true. I found that I had not gotten in-to trouble every time I drank, but that every time I had gotten into trouble, I had been drinking I have no regrets of the past, but sometimes I wonder what my life could have

Foundation

A Journal Supplement

1986: A position from which to build

Merrill Lynch

It was a great year for Sigma Phi Epsilon and our Educational Foundation, and it could not have been done without you, my alumni

Having made solid progress in 1986, your Foundation Trustees have renewed their commitment to a program that will involve more alumni in the Foundation's activities and develop investment programs tailored to the needs of our alumni donors. We intend to build on the solid foundation achieved over the last few years to ensure that we provide all of the programs and donor services of a major university foundation.

Sound management of the Foundation's day to-day activities is the key to the successful achievement of our long-term goals. Chuck White, our executive director, has respect and experience and the leadership qualities necessary to take us forward—especially as he allocates more and more of his time to this

Key parts of our new program include new emphasis on assisting our alumni with their deferred giving plans and the use of the many new and exciting insurance vehicles to endow our Foundation activities.

I plan to be in New Orleans this August to participate in our Conclave, and look forward to seeing many of you there. We will enjoy to seeing filany of you there. We will enjoy a well-rounded program with impressive Sig Ep alumni speakers and facilitators. I hope also to find an opportunity or two to discuss our Educational Foundation and its objectives. I am confident that those of you who are

able to join us in New Orleans will share my excitement about the quality of our under-graduate brothers and the great things they are doing through their Sig Ep experience in our chapters nationwide.

We are indeed nurturing a generation of leaders—one that is destined to make us all proud. As you know, I am committed to being associated with things which are "a breed eart," and our Fraternity today is just that. With warm regards to our great family of

alumni brothers. Fraternally yours Distrium William A. Schreyer

Chairman, Board of Trustees Sigma Phi Epsilon Educational Foundation

Education Is... The Heart of the Matter

Sigma Phi Epsilon is a rich and rewarding experience enjoyed by more than 14,000 students at 255 campuses. Because Sigma Phi Epsilon alumni believe in

Because Sigma Pril Epsilon autimit between and invest in the fraternity experience through the Educational Foundation, the experience continues to grow and meet the needs of the day, yet the values which have been part of the Sigma Phi Epsilon experience since 1901

"A university should be a symbol of change and progress...and yet, there is something unchanging about a university." Arbutus, 1946 at Indiana University ...and Sigma Phi Epsilon, too!

One of the primary indicators of chapter quality is found in its academic performance. Those chapters with superior academic records tend to have alumni who share the chapter's concern for their scholastic achievement

Academic programming provides one of the greatest challenges for undergraduate chapters. Helping a person develop a personal desire to buckle down and get good grades is often difficult. Once the expectation for a chapter is established that it simply will be tops on campus in grades, it all begins to come easily. Scholastic achievement becomes contagious and new members tend to live up to the expectation of tradition

For instance, at the Oregon State University Chapter the academic programming is rather basic: quiet hours on school nights and freshmen are assigned rooms with upperclassmen (this helps make sure the con

tagious part works).

The Sig Eps at Oregon State have won the award for highest grades on campus 60 of the last 62 years

"When freshmen come in, we show them right away a whole string of grade cups," s. Chapter President John Rossman, Oregon State '87. "Nobody would want to be a part of the group that would pull grades down or lose the grades award for the chapter."

The Sig Eps there have no minimum grade

requirement for pledging and there are no mandatory study hours for anyone.

Alumin "put their money where the mouths ere" by donating to the Oregon Alpha restricted scholarship funds set up with the

Educational Foundation. Scholarships may not necessarily "cause good grades, but there seems to be a striking correlation between those chapters with strong scholarship funds and academic performance of the undergraduate members of those

chapters.

A chapter fund must reach a \$2,500 balance to begin making awards from the earnings. The criteria for selecting recipients is established in a working agreement between the chapter's alumni board and the Foundation

Most of the funds are named to honor a distinguished alumnus or special friend of the chapter. Some memorialize undergraduates or

Getting Creighton chartered

Leadership honored with Dulin award

The William S. Gordon Dulin award is presented to a member of a newly chartered chapter for displaying outstanding leadership. This year, the Dulin award recipient was Jeffrey L. Hausman, Creighton

Jeffrey L. Hausman, Creighton '88 Outstanding Leadership

to establish a scholarship fund for the recipient's chapter in his name. Hausman, a marketing major from Omaha, Neb., led the marketing major from Omana, Neb, 180 file way at Creighton University in transforming the idea of starting a Sigme Phi Epsilon chapter into a 33-man chapter that was installed December 6, 1986.

Hausman originally pledged at the Kansas Gamma Chapter at the University of Kansa before transferring to Greighton University. he contacted Sigma Phi Epsilon Headquarters in June of 1985 to express an interest in forming a chapter on campus. Since its installation, the chapter has progressed well, pledging 29 men this spring to make it a 62-men chapter.

The Foundation Trustees established and endowed the Dulin award fhrough a bequest Brother Dulin left to the Educational Foundation.

Dulin was a charter member and the first initiate of the D.C. Alpha Chapter at George Washington University. Brother Dulin was a career employee of the Bell Telephone Company in Richmond, Virginia While in Richmond, he spent many hours with William L. "Uncle Billy" Phillips, Richmond '04, and kept up with the great growth and development of the Fraternity.

A guiding light since 1929

Major gift to Added Dimensions

Dr. George J. Cottier, Aubum '29, has provided a major gift to the Added Dimensions Fund for the Auburn University (Alabama Alpha) chapter in the Sigma Phi Epsilon Educational Foundation.

This fund will provide resources for the chapter to expand its educational program The chapter and its alumni board will be con-sidering new library facilities, study areas, in-house computer capabilities and video education facilities as plans are completed for

a major addition to the chapter house.
"Doc" Cottier, a recipient of the Fraternity's
highest alumni honor, the Order of the Golden Heart, has been active as an alumnus with the Auburn chapter since his graduation in 1929, building 58 years of dedication to Sigma Phi Epsiton. This commitment to the college fraternity has paid off handsomely for the men of Alabama Alpha as they enjoy the experience of one of Sig Eo's finest chapters.

Giving

n addition to the Annual Giving direct mail solicitation and the Board of Governors. there are a variety of ways to participate in the Foundation program annually. These are:

Memorial gifts

A very special way to express sympathy in the death of a friend or loved one. For a minimum contribution of \$5, the Foundation will send an acknowledgment of your memorial gift on an engraved card to the family. Your memorial contribution is also acknowledged in the Journal

 Honor gifts & Special occasion gifts
 Similar to memorial gifts, except these are used for births, weddings, and similar occasions or to recognize someone's particular

Chapter restricted scholarships For contributions to be added to a scholarship fund, which is operated by the Educa tional Foundation, for a particular chapter under an agreement with its alumni hoard

Student loan program

Your contribution is invested in the Founds. tion's student loan fund, which provides resources for the \$100,000 currently loaned to undergraduate brothers.

Added Dimensions program
Contributions go to the chapter's Added Dimensions account, which provides resources for educational materials and equipment for the chapter house

Parents program

For graduation, parents have the opportunity to enroll their son in the Trustees Honor Socie-ty and present to him at graduation a hand-some four-color engrossed certificate and a let-ter from Foundation Chairman William A Schreyer welcoming him to the alumni ranks of Fratemity. Membership in the Trustees Honor Society is \$100.

Planned giving is the focus of the Sigma Phi Epsilon Educational Foundation's future development and endowment plans. Planned gifts are the essential ingredient for a maturing foundation program, one which will provide the resources to benefit our Fraternity at the undergraduate level in the years ahead. A Planned Gift is usually property which

consists of an income interest and a re-mainder interest and the donation of one of these to a charitable or educational organization, like the Sigma Phi Epsilon Educational

Foundation.

This donation involves trusts, and/or a pooled income fund or an annuity. The Sigma Phi Epsilon Educational Foundation will have these vehicles available later this year to facilitate a planned giving program for Sigma Phi Epsilon

Planned giving is a service for the donor who needs a program for maximum tax benefit, income generation, asset protection and a means for providing a resource for an organization the donor believes in, like Sigma Phi Epsilon, for our alumni.

BAILEY'S BROTHERS

Bailey's Brothers is the Foundation's premier cumulative giving club recognizing those brothers and friends whose total support to the Sigma Phi Epsilon Educational Foundation exceeds \$10,000.

Larkin Bailey, Callfornia-Berkeley '23, served the Grand Chapter as Grand resident in 1948 and 1949, has been a trustee of the Educational Foundation since 1968, and is currently a member

of the executive committee.
The Bailey's Brothers giving club is now two years old. Two members joined the club during 1986. They are:

lach year, district governors are asked to select an outstanding senior in their district for the J. Edward Zollinger Outstanding Senior Award. The Zollinger award recognizes achievements of senior men who have proven themselves as leaders both in their chapters and on campus.

The awards are made at the Regional Leadership Academies Each award consists of a certificate signed by the grand president and the district governor. In addition, it carries with it the Zollinger Leadership Award. This consists of a \$100 cash award presented to the sophomore brother selected by the Outstanding senior's chapter. The sophomores selected are men who show the greatest

promise for future leadership

Sigma Phi Epsilon established the Zollinger Awards to com-memorate the leadership and inspiration J. Edward Zollinger gave to the Fraternity. Brother Zollinger served on the National Board of Directors from 1963 to 1971, and was grand president for two terms, from 1967 to 1971. He also served as the chairman of the Sigma Phi Epsilon Educational Foundation from 1971 until his death in November, 1976.

The recipients for 1986 were named at the Regional Academies in February of this year.

The Trustees Honor Soci ety is named in honor of the 16 men who make up the board of trustees of the Educational Foundation.

treational Foundation.
These men are each great leaders in their career fields, and still find time to devote to leading the Fraternity's Educational Foundational dation to greater heights

ety recognizes those who provide vital support by giving at least \$100 for Foundation work.

Graphy A. Hessa 33/011 University of Disconage David to Rose 53 (E): David to Rose 53 (E): Das Curry 63 (E): Das Curry 63 (E): Therman in Representation (E):

One of the great beauties of fraternity involvement is that if provides an environment where men learn to come to the aid of their brothers in times of need. The fraternity teaches and fosters a genuine interest and concern for the welfare

of fellow man
The Sigma Phi Epsilon
Educational Foundation provides a valuable avenue for alumni brothers to provide assistance to their younger brothers in need

The Donors are the people who made 1986 lhe bestever for the Foundation When you consider the number of people in this group, you can realize how critical the support of each of these people is. This group represents the grass roots support that allows the Educational Foundation to play the vital role it does in the Fraternity

A special heartfelt thanks

to these brothers and friends who made the year so great

Positions open

Counselors program strengthened

By Joseph W. Langella Jr Connecticut '83

Alumni Director Along with the reorganization of the district governor system has come a new development program for chapter counse-lors. The result has been new programm-ing support at Regional Leadership Academies, resource materials and Head-

Academies, resource materials and Head-quarters staff support.
For the first time in a number of years, the 1987 Regional Leadership Academy program offered a chapter counselor work-shop. This workshop gave chapter couns-lors the opportunity to review their posi-tion responsibilities and develop and sharp-en those skills which are necessary to im-reven shapter operations. prove chapter operations.

Counselors in attendance also reviewed

the prototype of the new Counselors
Guide—a comprehensive manual designed as a reference source for Fraternity opera-tions, Grand Chapter policy and proce-dures, risk management and liability concerns, as well as other issues and topics having a direct effect on the national Fraternity movement. The feedback from those counselors is now being used to develop a "final draft" Counselors Guide that will be presented to chapter counselors at their extensive workshop program at the 40th Grand Chapter Conclave in New Or-

leans this August.

Along with increased emphasis on the counselor program and their development comes a greater emphasis on the recruit-ment of talented and dedicated alumni to serve as chapter counselors. Without a doubt, the position of chapter counselor is ooult, the position of chapter counselor is the most important volunteer component the Fraternity has. No other position of-fers opportunity for greater impact on our undergraduates than in the position of chapter counselor.

Unfortunately, not all chapters have a counselor who is involved in their opera-tions. The following is a list of chapters and their locations with current counselor

COUNSELOR VACANCIES Countries Countries California Pi; Stanford in Palo Alto Georgia Beta; Georgia State in Atlanta Iowa Gamma; Iowa in Iowa City Illinois Eta; Southern Illinois at Edwardsville Indiana Delta: Indiana State at Terre Haute Indiana Kappa, Indiana-Purdue at Fort

ky Alpha; University of Kentucky at Lexington Kentucky Delta; Western Kentucky at Bowl-

Texas Beta, North Texas at Denton Texas Iota: Texas Tech at Lubbock Texas Nu; Texas Wesleyan at Fort Worth

Chapter counselors are officials of the Grand Chapter and are appointed by the National Board of Directors. Generally, chapter counselors have been out of school for five years or more and are professional individuals, with a quality chapter experience are not necessarily alumni members of the chapter they serve If you feel that you have chapter counselor, please contact Joe chapter counselor, please contact Joe Langella, Alumn Director, at Sig Ep Headquarters.

Alumni chapters growing

Connecticut '83 Alumni Director In the past, Sigma Phi Epsilon has official-ly recognized alumn chapters by presenting them with charters, but that may be changing. Due to the transitory nature of many of our members, it has been difficult to mantain the old standards that alumni chapters were expected to maintain. Now there is a were expected to maintain. Now there is a philosophy to help us get around the "red tape" of alumni chapter recognition in order to encourage and support casual alumni gatherings in areas where large groups of

Sig the result.

All across the country, there is a variety of Sig Ep alumni groups that gather on a regular basis. The only problem is that in some cases, the Headquarters staff does not know about these get-togethers. Thus, we cannot provide these groups with resources cannot provide these groups with resources that could help them improve and expand what they have organized. The Headquarters staff is available to assist alumni groups by providing accurate area alumni lists and

ideas on artivities Ine such group that has taken advantage of Headquarters assistance is the North-ridge, California, Alumni Association Originally a by-product of chapter coloniza-tion efforts at Cal. State-Northridge, this group has grown from a small core group of alumni to an active association with 67 of alumnt to an active association with 67 members on its rolls. With a mailing list of 152 brothers, the association covers the area north of Los Angeles that extends west to Thousand Oaks, north to Saygus, and east

"With the help of the Headquarters office, we have been able to expand our mailing list and involve more alumni in our activi ays John Gladysiewicz, Missouri-Rolla

'63, president of the alumn association. The Northridge alumni group has numerous activities throughout the year and has just completed a very successful "Alumn Day at the Races" at the Santa Anita Race Track. Transportation was provided by Roy Marson, San Jose State '64, to shuttle alumn and guests to and from the track, and Vincent Lampariello, New York Universi-ty '65, provided the group with the "best seats in the house."
"Our next function," says Gladyssewicz, "will be to participate in the California Gam-soft US Seats. Replaces affects.

ma/UC-Santa Barbara alumni golf tournament on Saturday, May 30.

Carlson School of Management named at Minn. MINNEAPOLIS Approximately 200

community leaders were on hand recently for the naming of the Curtis L. Carlson School of Management at the University of Carlson, Minnesuta '37, said it was "one

of the most soul-satisfying days of my life."
He said he hoped the school would become
a "mecca for entrepreneurs all over

The university president recognized Carlson as "a symbol of what we aspire to provide" at the university. The university also announced recently that Carlson had enasso announced recently that Carlson had en-dowed three chairs and four professorships in the Carlson School with \$4 million, In ad-dition, Carlson and wife Arleen endowed two other chairs outside of the Carlson School. Carlson has also been very active in the raternity as vice chairman of the Educareacernity as vice charman of the Educa-tional Foundation. Carlson funding has pro-vided the educational video programming for Sigma Phi Epsilon, including the award-wining liability risk management videotape widely regarded as the leading video pro-gram among national fraternities. The Sig Ep video has been purchased for use by at st six other leading national fraternities.

Curtis L. Carlson, Minnesota '37 Soul satisfying day

A plaque, honoring Carlson at the Univer-sity of Minnesota reads, in part; "Distin-guished alumnus, outstanding businessman, entrepreneur, owle leader, phalanthropist. In an extraordinarily productive lifetime, Curtis L Carlson has exemplified the values of education, hard work, risk taking, com-mitment, motivation femilies recomments and mitment, motivation, family, community and faith. His heritage represents the collective experience of immigrant Minnesotans. His legacy is a lasting contribution to the economic and educational well-being of Min-nesota. To affirm our judgment that Curtis L. Carlson uniquely exemplifies the achievement possine unrough management cubes tion and the benefits to society through pro-ductive business careers, the Regents of the University of Munesotta, upon recommenda-tion of the faculty- bestow the name Curtis L. Carlson School of Management."

Air Force's highest honor

LACKLAND AIR FORCE BASE, Texas-Maj. Gen. Chris Divich, Kansas '56, has received the highest honor awarded by the Air Force enlisted corp.

Divich has been inducted into the Training Command Order

of the Sword. He is only the 11th person to receive the high honor, which requires a unanimous vote by an 18 member com-mittee of semor enlisted advisers. The honor is reserved for com-monders, which are advisers of the property of the server of the se mittee of semor enhated advisers. The honor is reserved for com-manders who exhibit exceptional concern for enlated people. Divich is commander of all operations at Lackland, the only base that performs basic Air Yore military training. He has more than 8,000 flying hours in more than 20 types of aircraft. During the Vietnam War, he flew 188 combant missions while stationed at Takhli Royal Thai Air Base in Thailand.

The Golden Gate's golden anniversary

Engineering career touched big projects

Ry Michael A. Groot Ny menser A. Green California Berkeley '62 Special to the Journal SAN FRANCISCO—November 12, 1986,

was the celebration of the 50th anniversary of the world famous San Francisco-Oakland

of the world famous San Francisco-Oakland Bay Bridge being opened to traffic. There will be a celebration of the 50th anniversary of the equally famous San Francisco Golden Gate Bridge on May 27, 1987. Both of these bridges are part of the life's work of Howard A. Schirmer Sr., California-Berkeley '23. Schirmer, who was born in Oakland, Calif.,

schirmer, who was born in Osioano, caur., graduated from the University of California, Berkeley, in civil engineering. Following graduation, he became a design engineer for Alameda County where he took an active part in the design and construction of the subaqueous George A. Possey tube between Oakland and Alameda, Calif. This tunnel was one of the first underwater automobile tun-nels built in the United States. He became the assistant bridge engineer for Alameda

County.

In 1932, Schirmer went to New York to join McClinic-Marshal Corporation, which later became part of Bethlehem Steel Cor-poration. While in New York he was involved in the construction of the George Washington Bridge across the Hudson River in New York City to New Jersey, the Hack-ensack and Passaic skyway in New Jersey and the Empire State Building in New York

In 1933 he returned to the San Francisco hay area to become the resident engineer on the Golden Gate Bridge (the world's second longest single span suspension bridge) be-tween San Francisco and Marin County. A year later he became the resident engineer on the San Francisco-Oakland Bay Bridge East Bay approach. The Bay Bridge is two bridges connected by the world's largest can-tilever bridges. The San Francisco side is a double suspension span which is the world's

largest.
Schirmer remained on the West Coast in various administrative and engineering capacities with Bethlehem Steel. He was inred in the construction of the steel work voived in the construction of the steel work in many San Francisco high-rise buildings and California bridges. He retired in 1966 as General Manager of the Sales Fabricating Division of Bethlehem Steel for the eight western states plus Alaska and Hawaii. western states plus Alaska and Hawaii. For the ten years after his retirement from Bethlehem Steel, he worked as a consultant for the American Iron and Steel Institute. He became President of the Structural En-gineer Association of Northern California. and in 1985 he was the building industry's nor awardee.

He was appointed to serve on the ASCE Heritage Committee to plan the 50th an-

Bridge and the Golden Gate Bridge. He has given lectures on both bridges and has made

television appearances on the subject.
Howard lives in Oakland with Amy, his
wife of 57 years His son, Howard A.
Schirmer Jr., California-Berkeley '63, is
also a world-renowned engineer. The elder
Schirmer has three grandchildren.

When I was working on the bridges, I was wondering, I kept looking and thinking how we can keep putting on all this steel and how is this cable going to hold? I said, if sure hope hese engineers are right. And when it was over, I said (God bless them "—AI Zampa")

Marketing Educator of the Year OXFORD, Ohio-James F. Robeson, Ohio '59, was recently

mamed 1987 Marketing Educator of the Year by the Sales and Marketing Executives—international Association Rolesson was also recently named to the Signa Phi Epision National Leadership Committee, the group responsible for the Fraternity's leadership programs

Robeson pointed the faculty at Mismi University (Ohio) in 1985, and is the chairman of the marketing department. He holds the Joseph C Seibert professorship in marketing "Theory is very important to students who haven't had much experience in the work place," said Robeson. "However, it is important to understand the how to 'as well as the why," he

Robeson has served as a consultant on marketing problems for companies such as IBM, Abbot Labs and NCR

Artwork from your attic

By Joseph Berryhill Courtesy of the Charlottesville Daily Progress

CHARLOTTESVILLE, Va.-When Richard Guy Wilson, Colorado '63, goes to New York City these days, he often does a little

avesdropping.

He visits the Brooklyn Museum of Fine

Arts and hears, "Oh, I threw that out" and other comments by visitors looking at machines like vacuum cleaners from the 1920s and 1930s.

He may appear nosy, but Wilson sn't try ing to be rude. He's trying to gauge laymen's reactions to the exhibition he and a Brooklyn reactions to the examination and a broosyn museum official organized. Titled "The Machine Age In America, 1918-1941," the show features about 250 objects as diverse as paintings, cars, airplanes, pencil sharpeners and cigarette lighters. Wilson, a professor of architectural history

Wilson, a professor of architectural history at the University of Virginia, doesn't have to eavesdrop to find out what critics think of the exhibition. Since it opened last Oc-tober, "The Machine Age" has been dis-cussed—and usually praised—by writers in

many publications. many publications.
"An aesthetic experience of a high order,"
wrote *The New York Times*" John Russell.
And the show attained celebrity status when
the "Today" show's Willard Scott visited it, doing his live weather forecast as he talked about a number of objects on display.

All of which pleases Wilson, who recently

sed the exhibition and his life at his "It feels very good," said Wilson, a slender

man with brown eyes. "One waits a long time for such a thing."

The success of the show—which will travel The success of the show—which will travel to Pittshurgh, Los Angeles and Atlanta this year—is a matter of good timing, Wilson said After a generation passes, people begin to look back and remember objects that have passed from the secre, he said.

"The Machine Age" is an explanation of how American became modern, Wilson explained, And that is a tale largely moleied by

The exhibition begins with the early part The exhibition begans with the early part of the 20th century, a time when machines lawe moved into the kousehold—and not through the front door either. "The machine entered through the kitchen door, the bathroom door, the garage door," he said. By the early 20th century. "The little lady in the kitchen is controlling literally at her fingertips more horsepower than her grandfather.

That ushered in a new type of artist—the industrial designer, who designed the look of refingerators, radios and airplanes that of refragerators, radios and arplanes that quickly became familiar to all Americans. One of the show's appeals may be the simplicity of the machines compared to modern-aged mechanics.

tion for Cain-Sloan in Nashville, Tenn. Lynn P Munday, Teanessee Wesleyan '66, has been prumited to vice president of Sesbels Bruce and Co. in Maryville, Tenn

TEXAS Dr. M.D. Conte, Baylor '78, has opened an opbrowthe practice in Carrollton, Texas, spenes an op-tometric practice in Carrollton, Texas.

Ben Haginn, Baylor '70, is a registered representative with United Services Planning Association and Independent Research Agency for Lafe Insurance Inc. in North Little Rock, Ark

Professor's Machine Age 1918-1941 winning praise

son, Colorado '63 oc experience of a high order

"You open up the hood of an auto today, nd with all the stuff there you can't even ind the engine anymore." But people's atfind the engine anymore." But people's at-titudes toward machines have changed as much as the devices, he said.

During the time period the show covers,

"There was no question the future was going to be better...The machine was the

saviour of the future."

Now, in an age of nuclear weapons and row, in an age of nuclear weapons and computers that most people don't under-stand, most people don't have that view. "The marhine is seen as something evil." To get the show started, Wilson used time

sabhatical from UVa and traveled across the country, visiting museums, ar-chives and businesses like General Motors and Ford. And he cajoled private donors-who gave the exhibit three out of four of its objects-into giving him a two-year loan on their valuables.

That wasn't always easy, "You're asking in some cases for people to give up something they have hanging on their wall,"

Sometimes he never found objects like old Sometimes he never found objects like old ferfigerators that he saw in magazine adver-tisements. "It seems that nothing becomes outmoded faster than appliances," said Wilson, who also organized an exhibition on "The American Renaissance" for the Brooklyn museum in 1979.

The current exhibition, he said, is "to a

slight degree autobiographical." Born in 1940, at the end of the period covered in the show, he grew up with the "remnants and remembrances" of the period, he said. His fascination with machines may have started on his birthday.

"When I was born, my father went out and started buying a train set for me," he said, pointing to a shelf in his living room

where one of instruction equip-ment business in Los Angeles. He sold cranes and shovels, including some to the monstrous Hoover Dam, a mechanical mar-vel near Las Vegas that is featured in photographs in "The Machine Age."

His mother studied architecture and in-

His mother studied architecture and u-terior design, and his modern family home was designed by a student of architecture stalwart Frank Lloyd Wright. Wilson got a degree in history from the University of Colorado in 1983, but didn't know what he wanted to do. He tried law school, but didn't like it, and decided to enlist in the Navy.

He developed an appreciation for architec-ture and history, and after leaving the Navy in 1967 he went to the University of Michian 1967 he went to the University of Michigan and got two graduate degrees in American culture that set him on his career path. The reactions to his exhibit haven't all been glowing, Wilson admits. A critic for "The Village Voice," a New York City publication, said the show gave him a migrane heatache. But Wilson said 95 percent of the press about "The Machine Ance" has hearn ward.

a good book or a tour of a museum—but he admits to being a workabolic. He write most of a book that documents, "The Machine Age." and a historical arts and crafts exhibit he organized will open at a Boston museum in March.

He doesn't fret that his exhibitions are not permanent like paintings and other art. "Exhibitions enter into a realm of memones, of myth perhaps," he said. "Peo-ple take different things from them." Although he's glad the increased interest

in old machines may cause more of them to be saved, Wilson frets over one part of their

These things become collectors' items. he said, "and the prices begin to skyrocket.

Past Grand President

William A. "Mac" MacDonough

STATE COLLEGE, Pa. Past Grand Presedent and Order of the Golden Heart William A. "Mac" MacDonough, Washington & Lee '29, died January 18, 1987, at the age of 82. "Brother Mac." as he was known to many, was born in 1904 near Cleveland, Olioi. He was a boy vaudevillan from 1920 to 1923 with West Clevenson.

with World Champion Walker George Brown in an act called "Pedestrianism." Playing the Keith and Orpheum circuits, usually as a bill closer, the act gave ad lib clowning opportunity to such stars as Chic Sale, Jack Rose, Tom Patricola, Pat Rosiney

Sale, Jack Rose, from Patricola, Pat Roseney and Jimmy Barry.

In 1925, he graduated from Massanutten Military Academy in Woodstock, Va., when he met his wife, Betty He was intuited in-to Suma Plu Epsilon as a freshmen at W & L He made a one-year return to show bu

ne made a one-year return to show busi-ness in 1928, in a series of unsuccessful Shuber musicals. The following year, he was named vice president of sales for fraterinty jeweler Burr, Patterson & Auld Co.

Over the years, he remained involved in the Fraternity, and in 1937 started the negotiations that resulted in the merger of Sigma. Phi. Epsilon. and Theta. Upsilon. Omega in 1938 In 1940, MacDonough began a cureer in

advertising that took him to top level posi-tions with Graybar Electric in Detroit, General Mills in Minneapolis, and then the Crosley & Bendix Appliance Division of Avoc Inc. in Cimennati. In 1955, MacDonough joined, the Kudner Advertising Agency in

merger that formed Tatham-Laurd & Kudner

merger that formed Tatham-Lund & Rudner of New York and Cheago, A short time later, he retired to Clemson, S.C.
Mac's retirement, however, was short hved. In 1986, he ploned a former husiness associate to form Benn and MarDonough Advertising of which he became Chairman of the Board of Directors.

He was serve inconvenedal in much of the

He was very instrumental in much of the Fraternity's work over the years—including the formation and installation of the South the formation and installation of the South Carolina Beta Chapter at Clemson Univer-sity. He was elected to the National Board of Directors in 1967 and played a key role in the revision of the Ritual of the Fraterni-ty that was adopted in 1971 and 1973.

MacDonough served as Grand President of the Fraternty from 1978 to 1975. He was inducted as the 75th member of the elite Order of the Golden Heart at the 75th Anniversary Grand Chapter Conclave in St. Louis in 1975.
